participants

**BRIDGES for  
TRAINERS,**  
international  
online event with  
50 participants

International online courses with 148 Romanian participants sent to 78 courses.

# ANPCDEFP supports:

**Europe goes local** – The main aim of the project is to contribute to increasing the quality of youth work carried out at local level, in particular by facilitating collaboration between municipalities/local public institutions responsible for the youth strand and youth organisations or groups of young people.

**Europeers** – Young volunteers going through the country and Europe to share their project experience. The EuroPeers Volunteer Network shares the experience of those who have already been involved in youth mobility projects (EVS/ESC volunteerships or youth exchanges) through Erasmus+ and/or the European Solidarity Corps.

# Institutional strategies

The ANPCDEFP makes constant efforts to support beneficiaries and potential beneficiaries, but also to transform and improve itself as an organisation, through the Inclusion and Diversity Strategies and the Sustainable Development Strategy.

Below you can examine the ANPCDEFP approach to inclusion and diversity and, respectively, to sustainable development.
